

TIME IN AVIATION . . . The U. S. Aviation Corps celebrated its 30th anniversary yesterday. Various units of the Air Service, situated all over the nation, held enthusiastic celebrations for the occasion. Above picture geographically demonstrates the "old and new" in air craft. The very latest of monster "Flying Fortresses" built by Boeing, is shown compared to the first Wright Brothers plane sold to the Army, Aug. 2, 1909.

City Finance Group Given Cabrillo Data

Following a thorough discussion of the proposed improvement of Cabrillo avenue — removal of P. E. tracks and wiring and paving the present P. E. right-of-way from the station to Plaza del Arco — with officers of the City-Wide Improvement association, members of the city finance committee said Tuesday they would consider the matter further with the whole city council.

No commitment was made by the finance group, composed of Mayor William H. Tolson, City Councilmen Tom McGuire and James Hitchcock, concerning the Improvers' suggestion that the Cabrillo betterment be done with municipal general funds. A definite decision is expected to be made on this major city improvement project in the near future after the council as a whole has had an opportunity to go into the matter.

Chairman R. J. Deininger headed the group of Improvement association leaders at the conference Tuesday. The proposal of the Pacific Electric to sell the Cabrillo right-of-way to the city for \$8,055 and remove its tracks and overhead wiring for \$10,300 — or less if the city undertakes this job — was reviewed in detail.

It was generally agreed that the entire improvement can be done for about \$12,000. The Improvers are urging the council to use state gasoline tax and general funds for this work rather than create an assessment district or issue bonds.

Dog Team Aids Hitch Hiker
THE PAS, Man. (U.P.) — A wealthy Chicago business man can lay claim to the fact that he is the only United States citizen ever to hitch a ride by way of dog team. When Carl and Ruby Schubert, brothers living in northern Manitoba, mushed on an 85-day trip to Chicago, they encountered Henry C. Schmidt who used his thumb and managed to get a lift on the sled driven by the brothers.

Borough System, Secession from County Studied by L. A. Officials

County officials are studying the latest proposal by Los Angeles city councilmen for consolidation of the metropolitan area of the county under the borough system of administration. This plan was advanced this week by Councilman Arthur E. Briggs, who in private life is an attorney and dean of a law school.

Along with the Briggs proposal, the city council's planning committee is studying another proposal for withdrawing the metropolitan area from the county and forming a combined city-and-county government.

County officials believe the city lawmakers will give up the plan for withdrawing from the county, declaring that the county would get the best of this trade.

Would Prove Costly
For one thing, the bulk of the relief load which county taxpayers help to support is within Los Angeles city limits and would remain there, according to Chairman Roger Jessup, of the board of supervisors. It is the increase in old age pensions and increasing levy over last year's figure of \$1.51 per \$100 assessed valuation.

Greater part of the crime in the county also is committed in Los Angeles city, another super-

Fischel Nominated for P. O. Job

Reports from Washington, D. C., early this week stated that Earl F. Fischel, Lomita grocer, had been nominated in the House of Representatives by Congressman Lee Geyer for the postmastership of Lomita. Names of prospective postmasters were then sent to the Senate for confirmation, a mere formality.

No further report was received concerning Fischel's political appointment to succeed the incumbent postmaster, Miss Birda Padlock.

BEN & MAC NOW HITTING STRIDE . . . In the Gilmore service station at 2172 Torrance boulevard, Ben Stewart (left) and E. A. "Mac" McBride are filling gas tanks, wiping windshields and draining crank cases in a manner satisfactory to their many friends and customers. This is highly gratifying to the partners.

Ben and Mac, affable, enterprising and ambitious, are two "Oakies" about whom John Steinbeck did not write in his famed best-seller, "Grapes of Wrath." Both came here from Carnegie, Okla., where Ben operated his own service station for several years and served as assistant hotel manager. He has been in Torrance for four years, is married and has a four-months-old daughter.

Partner Mac has been in and around Torrance five years, was at the same station for 18 months when it was operated by Cecil Smith. In his home-town, Mac spent seven years with Superior Lumber company, and had many years' experience servicing Torrance automobiles. He is married and has two daughters.
